 - Q2: What can he/she improve?
 - Q3: What should he/she start doing?
- Option 2

 - Q3: What have you observed about this person about which you would like to provide additional feedback to him/her that may not have been previously addressed in this assessment?

Most often used is “My participant can invite the evaluators.” This is an easy process for the participant. However, you have the option, “I will invite the evaluators for my participant.” If you invite the evaluators, you will need their email address, name, relationship, and survey language. We have an optional csv file that you may fill in and upload.

How Evaluators Are Invited To Participate

Evaluators are bosses, peers, direct reports, and others who are invited to provide input about the participant. Regardless of who invites evaluators, the consultant will always be able to see the list of evaluators in the Project Dashboard

- I will invite the evaluators for my participant
- My participant can invite the evaluators

The number entered here is the number of evaluators your participant is required to invite before the self-survey button becomes active.

Minimum Evaluations Per Participant?

This is the minimum number of complete evaluations a participant has to have to be included in the report. The minimum eligible is 5 evaluations. If the participant is responsible for inviting his/her evaluators, he/she will have to invite this minimum evaluators before starting the self-survey.

Self Survey Leadership Circle Profile™ Complete by September 01, 2017 Take the Survey

0 of 0 evaluations completed You must invite at least 5 evaluators in order to take the Survey. Evaluator Setup

You have **0 evaluations** to complete:

Click “+ Add Evaluator” button.

Your goal is to receive feedback from at least 10 evaluators. In order to meet this goal, we suggest you invite at least 15 people to evaluate you. You can invite more than 15 people to evaluate you. Criteria for your evaluators are those people who:

- Know you well and will provide you with honest feedback.
- Have good intentions and sincerely want to help you learn more about yourself.
- Understand your job responsibilities and areas of influence.
- Can describe you in relation to the many roles you play on the job.

The confidentiality of your evaluators is protected (with the exception of Boss and Boss’s Boss), so you’ll need at least 3 completed evaluations in each category to see the break out data in the category on the report. For example, if only two in the “Peer” category complete the survey, their data is included in the overall results, but not reported in the Peer column on the report. The only exception to this anonymity rule is your Boss, or Boss’ Boss. Their data is not considered anonymous, and will break out in the respective category with just one.

Evaluator Categories:

Boss's Boss (optional) – completes your Boss's job performance appraisal. Invite one or more. This person's quantitative responses will be identifiable (not anonymous) unless more than one boss's boss completes, then the responses will be combined.

Boss – completes your performance appraisal. This person's quantitative responses will be identifiable (not anonymous) unless more than one boss completes, then the responses will be combined.

Peers – know your work as a leader but doesn't report to you or have input into your performance appraisal. Invite more than three. Three need to complete the survey for you to see the breakout data in this category.

Direct Reports – individuals you supervise and complete job performance appraisals for. We recommend including all. Three need to complete the survey for you to see the breakout data in this category.

Other – Invite at least three in the "Other" category. Others may include those in other organizations; others you've worked with in volunteer organizations; other close associates, constituents, vendors, customers, and/or customers/partners not in the above categories.

Enter the evaluator's email address, first name, last name, select relationship, and click Add Evaluator. The invitation email is immediately sent to the evaluator.

How to Upload Participant / Evaluator CSV File

Find your project and click “Manage Project.” Under the “Participants” tab click “Import Participants.” Do not use the Import Evaluators file as this file is incorrect.

The screenshot shows a navigation bar with tabs: Participants, Evaluators, Participant Email, Evaluator Email, and Options. Below the tabs are three buttons: '+ Add Participant', 'Import Participants', and 'Download Participant Status Details as CSV'. To the right is a dropdown menu labeled 'Sort by Evaluator Status'.

Click “Download the CSV Sample”

The screenshot shows a form titled 'Import participants from CSV file'. It includes a text input field with 'No file selected' and a 'Browse File' button. Below the input field is a link: 'Not sure about the format of the file? [Download the CSV sample.](#)'. At the bottom are two buttons: 'Upload Participants' and 'Cancel'.

Open the CSV file called “import_participants_sample.csv”

Each group (group1, group2, group3) begins with the participant (completing self-survey) information. See yellow highlight.

The evaluator information is added for each participant. The group (group1, group2, group3, etc.) tells the system which participant the evaluators belong to. To add more evaluators, insert additional rows.

The format of the information such as column order, group1, direct report, english, etc., must remain as is for the file to import. There can be no extra spaces when copying email addresses or names. The file needs to be saved as a CSV file.

If you are importing participants for a Leadership Culture Survey, the group1, group2, etc. refers to the participant, not to groupings for breakout reports. LCS participant sample file below. The file needs to be saved as a CSV file.
